Organic Fostering: "Check My Area"

SaaS motion-graphics animation · lead generation · 9:16 vertical · 30 seconds · Instagram, Facebook and TikTok (organic and paid) · Prepared by Hulk Marketing

CONCEPT

Who it's for

People across Manchester and the North West who have thought about fostering but don't know if Organic Fostering works in their area. It's the simplest possible first step: no form to read, no commitment, just the first part of their postcode.

The idea

The whole video is one satisfying interaction: typing a postcode into a search box. The first three characters go in ("M16"), a stylised map of the North West lights up, a radar pulse spreads from the pin, and the three real answers from the website's area checker appear as clean result cards.

The message: fostering might be closer to home than you think, and finding out takes three characters.

Line: Could fostering start on your street?

Why it works for lead generation

- **It's local.** A postcode makes the ad feel personal, and people can't help wondering about their own.
- **It's the smallest possible ask.** The website says the first part of your postcode, for example M16, is enough for an initial check. That's an easier first step than "Start your enquiry".
- **It sends people straight to a real lead form**: the area check at organicfostering.co.uk/areas-we-cover collects name, phone, email and postcode.
- **It's honest.** It shows all three possible answers, including "We may not currently recruit in your area", which builds trust.

Why it's new

Earlier animations covered eligibility, the allowance, values, a day in the life, the application steps, transfers, a year-in-review and caring professions. None of them used the postcode area check, and none was built around location.

Hulk Marketing project note

The Hulk Marketing project-management app needs signing in again before I can read it, so I couldn't check the project board. This concept follows the daily series we've been running: new angle, one clear hook, verified copy only, and a lead-generation set-up.

SCRIPT

HOOK · 0–3 s

Visual: A clean white screen with one glowing search box and a blinking cursor. The placeholder reads "Enter the first part of your postcode". Keys tap in "M", "1", "6", each with a crisp click.

On-screen text: Could fostering start on your street?

Voiceover: "Could fostering start on your street? Find out in three characters."

THE CHECK · 3–8 s

Visual: The search box slides up and a stylised, label-free map of the North West fades in beneath it in soft lavender and peach. A magenta pin drops and a radar pulse ripples out. A progress bar reads "Checking our recruitment area…".

On-screen text: The first part of your postcode is enough.

Voiceover: "You don't need your full address. The first part of your postcode is enough."

THE THREE ANSWERS · 8–18 s

Visual: Three result cards flip in one after another, each with an icon and colour, exactly as worded on the website:

1. **Green check:** "We currently recruit in your area." A short conversation will confirm the details.
2. **Amber pin:** "Let our team check this for you." A team member will confirm whether support is available.
3. **Lavender clock:** "We may not currently recruit in your area." Coverage changes over time, so it's always worth asking.

Voiceover: "Whatever the answer, a real person from our team gets back to you."

WHY YOUR POSTCODE · 18–23 s

Visual: The map zooms in gently on the pin. A dotted route links a small house icon to the OF office icon, and a calendar card shows repeating visit marks.

On-screen text: So we know we can give you regular visits and support.

Voiceover: "We check your area so we know we can give you regular visits and support."

CTA · 23–30 s

Visual: The orange "Check my area" button pulses. A cursor taps it, a toast slides in, "Thanks! We'll be in touch.", and the screen folds into the OF logo on the magenta-to-orange gradient.

On-screen text: Check your area · organicfostering.co.uk/areas-we-cover · 0161 241 1332

Voiceover: "Check your area with Organic Fostering. No commitment, just a conversation."

LOOK AND SOUND

- **Look:** "clean SaaS light": an ivory and lavender background, one glass search card, a soft stylised map with no town names, a magenta pin, orange buttons, green, amber and lavender result chips. Poppins type and plenty of white space.

- **Motion:** keystroke typing, the search box lifting, a pin drop and radar pulse, card flips, a gentle map zoom with a dotted route, and a button tap with a ripple, on a 110 BPM grid.
- **Sound:** crisp keyboard clicks, a soft "ping" on the pin drop, a radar swell, a card-flip whoosh for each result, a calm, optimistic electronic bed, and a warm, friendly Northern English voiceover of about 60 words.

LEAD GENERATION SET-UP

- **Primary link:** organicfostering.co.uk/areas-we-cover, the area-check form itself, with UTM tags. The video's job is to send people to that form.
- **Paid:** a Meta lead ad with an Instant Form that mirrors the website: first name, phone, email, "First part of your postcode (for example M16)" and "Best time to call".
- **Targeting:** geo-target Manchester and the North West. Make one version per area if the team confirms where it is recruiting.
- **Organic:** "DM us the first part of your postcode and we'll check for you." Ask for a DM, not a comment, to keep locations private.
- **Retargeting:** show a follow-up ad to people who watched at least half the video but haven't submitted the form.
- **A/B test the hook:** "Could fostering start on your street?" against "Are we recruiting foster carers near you? Type 3 characters."

CAPTION

Could fostering start on your street? 📍

You don't need your full address. The first part of your postcode is enough for our team to check whether we're recruiting foster carers near you. Whatever the answer, a real person gets back to you, and it doesn't commit you to anything.

Check your area: organicfostering.co.uk/areas-we-cover · 📞 0161 241 1332 · or DM us the first part of your postcode.

#Fostering #FosterCarer #BecomeAFosterCarer #ManchesterFostering #NorthWestFostering #OrganicFostering

COPY CHECK

- The postcode guidance ("The first part of your postcode, for example M16, is enough"), the three result messages, the "Check my area" button, "regular visits" and the informal, no-commitment first conversation all come from organicfostering.co.uk/areas-we-cover and the homepage.
- The map shows no town names, because the website deliberately lists no areas until recruitment there is confirmed. "M16" is the website's own example postcode, not a claim that M16 is covered.
- No allowance figures are used in this video.
