Organic Fostering: "The Fostering Flow"

SaaS motion-graphics animation concept · 9:16 vertical · 32 seconds · Instagram Reels, TikTok and Facebook

1. References

Pinterest blocks automated browsing, so I couldn't open individual pins. This concept draws on the SaaS motion styles that are popular on Pinterest, Dribbble and Framer right now:

- **Onboarding steppers:** steps light up one by one, connectors fill, a progress bar tracks the run and a completion banner appears.
- **Glass cards and app windows:** floating, semi-transparent UI panels with soft glow edges and depth.
- **Bento grids:** a dashboard of rounded tiles that snap into place, each with one idea.
- **Micro-interactions:** a cursor click with a ripple, icons that morph into checkmarks, toast notifications, and a progress ring filling to 100%.
- **3D clay icons:** soft, glossy 3D objects (a house, a chat bubble, a calendar) that pop in on the beat.

2. The Big Idea

Becoming a foster carer, shown as a clean app onboarding flow: five steps, one progress bar, from "Start" to "Approved".

Most people think fostering is complicated and don't know where to begin. This animation makes the journey look clear, guided and achievable. It uses the visual language people already trust from the apps they use every day.

Tagline: Fostering, step by step.

3. Hook (0–3 s)

Visual: A glowing glass button reading "Start your fostering journey" floats in a dark space. A cursor glides in and clicks, and a magenta ripple bursts out.

On-screen text: Thinking about fostering? Here's the whole journey in 30 seconds.

Voiceover: "Thinking about fostering? Here's the whole journey, in thirty seconds."

4. Explanation: Scene by Scene

Scene 1 · 3–5 s · The flow appears

Visual: The click opens an app window. A vertical stepper slides in with five empty steps and a progress bar at 0%.

On-screen text: 5 steps. We're with you on every one.

Voiceover: "Five steps, and we're with you on every one."

Scene 2 · 5–9 s · Step 1: Start a conversation

Visual: Chat bubbles pop in. The user's bubble says "Hi, I'd like to know more about fostering." The Organic Fostering reply says "Let's talk. No commitment." Step 1 morphs into a checkmark and the bar fills to 20%.

Voiceover: "It starts with an informal chat."

Scene 3 · 9–13 s · Step 2: Home visit

Visual: A 3D clay house drops in on the beat. A calendar card flips to "Home visit booked" and a map pin lands on Manchester. Progress: 40%.

Voiceover: "Then we visit you at home."

Scene 4 · 13–17 s · Step 3: Apply and train

Visual: An application form fills itself in, line by line. Training module cards stack up and tick off: "Preparation", "Ongoing learning". Progress: 60%.

Voiceover: "You apply, and we train you."

Scene 5 · 17–21 s · Step 4: Assessment

Visual: A profile card builds itself with tags: "Your home", "Your household", "Your strengths", "Your story". Progress: 80%.

Voiceover: "Your assessment is about getting to know you."

Scene 6 · 21–25 s · Step 5: Panel and approval

Visual: The progress ring fills to 100%. A toast slides in: "Approved foster carer", with a burst of green leaves from the OF logo. Small text: "The agency decision maker makes the final decision."

Voiceover: "Then panel, and approval."

Scene 7 · 25–28 s · The support dashboard

Visual: The camera pulls back as a bento grid snaps together. The tiles read:

- Supervising social worker
- Advice outside normal hours
- Ongoing training
- Other foster carers
- Allowance from £400.72 a week*

On-screen text: And the support doesn't stop there.

Voiceover: "And once you're approved, the support keeps going."

5. CTA (28–32 s)

Visual: Everything collapses back into a single glowing button: "Start your enquiry". The cursor clicks it, and the OF logo resolves on a magenta-to-orange gradient.

On-screen text: Step 1 starts with a conversation. · Start your enquiry · 0161 241 1332 · organicfostering.co.uk · Rated Good by Ofsted

Voiceover: "Step one is just a conversation. Start yours with Organic Fostering."

Small print: *Weekly allowance for one child aged 0–4, based on the rates on organicfostering.co.uk (checked 26 Oct 2026). An estimate does not guarantee a placement or income. Rates may vary by region and are subject to change.

6. Look and Motion

- **Look:** deep plum night background that brightens to a warm peach as the flow progresses, so the journey literally moves from dark to light.
- **Colour:** magenta for active steps, orange for progress and buttons, leaf green for checkmarks. Poppins throughout.
- **UI:** glass app window with a soft magenta edge glow, rounded cards, a 3D clay icon for each step.
- **Camera:** a slow continuous push down the stepper, with a small whip to each new step and a pull-back for the bento grid.
- **Rhythm:** one step every 4 seconds, cut to a 120 BPM grid; every checkmark lands on a beat.

7. Sound

- Soft UI clicks, pops on each checkmark, a whoosh between steps and a rising shimmer on "Approved".
- Light, optimistic music bed at 120 BPM, ducked under the voiceover.
- Warm female voiceover, about 70 words, calm and friendly.

8. Caption

Thinking about fostering but don't know where to start? Here's the whole journey, step by step. 🧡

It starts with an informal chat, with no commitment. 📞 0161 241 1332 · organicfostering.co.uk

9. Copy Check

- The five steps, the informal first conversation, the support list and the allowance all come from organicfostering.co.uk.
- No timescales are given for the process, because the website doesn't publish any.
- "Approved" is shown as the end of the flow, not a guarantee; the small print says the agency decision maker makes the final decision.
