Panel, Explained

SaaS motion-graphics animation about the fostering panel, with voiceover and word-synced captions · 9:16 vertical, 1080×1920 · about 50 seconds · Instagram, Facebook and TikTok (organic and paid) · built in After Effects

CONCEPT

The idea

Panel can sound like the most daunting part of fostering, like an interview board or a courtroom. Organic Fostering's website says the opposite: questions "are not designed to catch you out", and "by this stage, your assessor knows you well and will help you prepare". This video opens the door and lets people sit in on a panel meeting, as a calm, familiar **video-call screen**.

A meeting window titled **"Fostering panel · Stage 7 of 8"** opens. First a Form F report appears with the applicant's own comments in the margin. Then the call fills with tiles, each one a role rather than a face: Chair, Social work, Health, Education and Lived experience of care. Example questions drop into the meeting chat (motivation, strengths, support network). The applicant and their assessor step out while panel discusses, a notification says **"Recommendation made"**, and a card shows that the **agency decision maker** makes the final decision.

HOOK · FIRST 4 SECONDS
"Fostering panel sounds scary? Here's what actually happens."

END LINE
"Questions about the process? Talk to the fostering team."

Who it's for

Adults across Manchester and the North West who are thinking about fostering, have heard there is an assessment and a panel, and find the process daunting. It also helps people already in assessment know what to expect.

Why it works

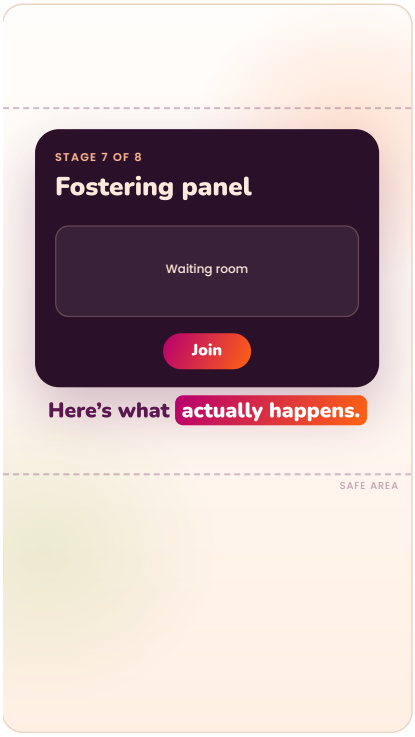

- **It answers a fear, not a feature.** "What actually happens" is a curiosity hook, and the answer is calmer than people expect.
- **Everyone knows a video call.** Tiles, a chat and a notification make an unfamiliar meeting feel ordinary.
- **It's accurate.** Every step comes from the site's panel, assessment and journey pages: the Form F, who may sit on panel, the kinds of questions, the recommendation and the agency decision maker.
- **Everything follows the voice.** Each tile, chip and card enters on the word that names it, and the captions are the voiceover.

Why it's new

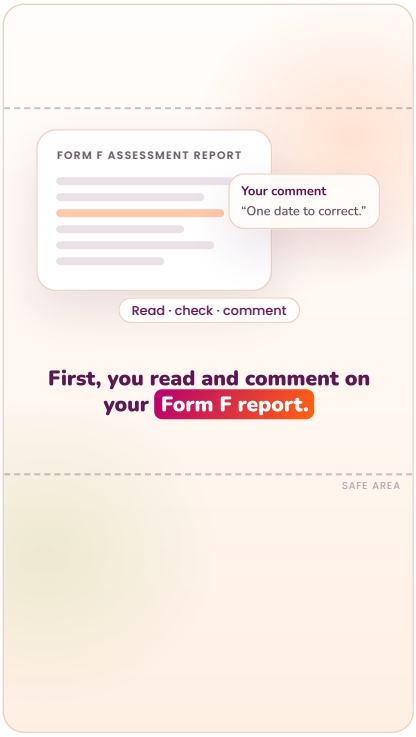

Earlier pieces used a stepper, a postcode checker, a software update, wrapped story cards, a CV scanner and FAQ kinetic type. "The Fostering Flow" gave panel one step out of five. This is the first piece about panel itself, and the first to use a video-call screen, a report with margin comments and a meeting chat.

STORYBOARD: SIX KEY FRAMES

Layout sketches in Organic Fostering's colours and fonts; the final art is built in After Effects. The dashed lines mark the safe area (y = 270–1240 px at 1080×1920): every word stays between them, clear of Reels ads' bottom 35% and the buttons on the right.

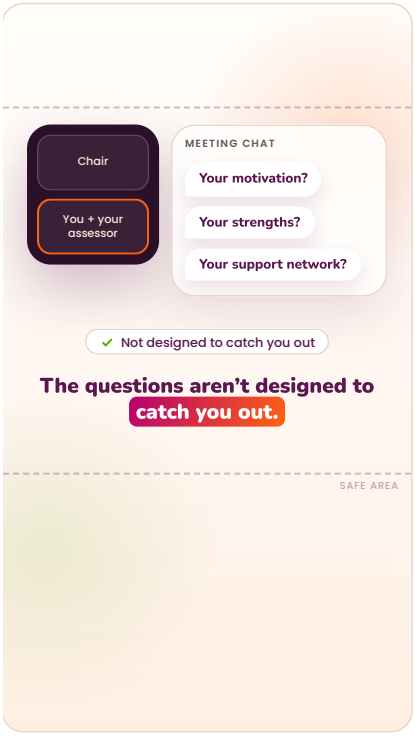

1 · Hook · 0:03
A calm meeting window opens: "Fostering panel · Stage 7 of 8", with a waiting room and a Join button.

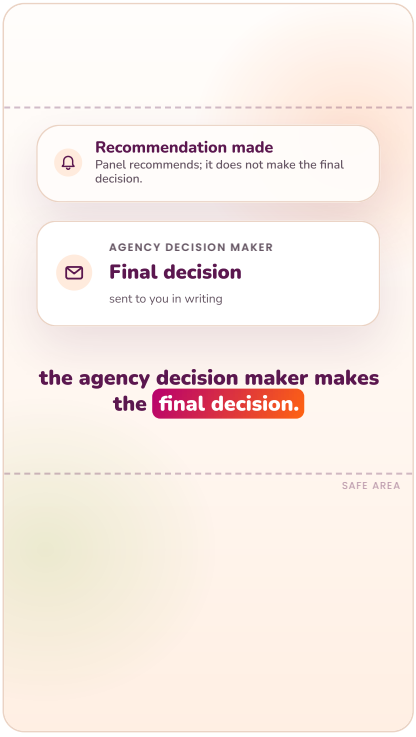

2 · The report · 0:11.5
A Form F report slides in and a margin comment pops up in the applicant's own words.

3 · The panel · 0:24
The call fills with tiles, each one a role on its word. No faces: only icons and role names.

4 · The questions · 0:32
The grid shrinks to the side and example questions drop into the meeting chat on their words.

5 · The decision · 0:38
A notification lands, then a card shows the agency decision maker's final decision, sent in writing.

6 · End card · 0:50
The panel tiles fade to one "Organic Fostering team" tile; its mic unmutes and the phone number types in.

SCRIPT AND SYNC SHEET

109 spoken words, about 44 seconds of speech at a calm 150 words a minute, inside a 51-second edit. The captions are the voiceover, word for word. **Purple words** are cues: the element on the right enters on that word, and small labels arrive with their element. The panel lines are quoted or closely based on organicfostering.co.uk/panel-and-approvals.

BEAT	VOICEOVER = CAPTIONS	ON SCREEN
1 · Hook 0:00–0:04.5	"**Fostering panel** sounds scary? Here's what **actually happens**."	• **Fostering panel** → a plum meeting window rises on a warm peach canvas: "Fostering panel", with the small label "Stage 7 of 8". • **actually happens** → a "Waiting room" tile and a gradient "Join" button appear; the cursor glides to it.
2 · The report 0:04.5–0:12	"Panel is the **final stage of assessment**. First, you **read and comment** on your **Form F report**."	• **final stage of assessment** → the "Stage 7 of 8" label pulses and a report slides in beside the window. • **read and comment** → a chip, "Read · check · comment", and a margin comment pops up beside a highlighted line. • **Form F report** → the report's title types in: "Form F assessment report".
3 · Preparation 0:12–0:16.5	"Your **assessing social worker prepares you** for the meeting."	• **assessing social worker** → a message bubble slides in from "Your assessor". • **prepares you** → it reads "Let's talk through likely questions", and the Join button lights up.
4 · The panel 0:16.5–0:24.5	"**The chair** introduces the panel. Members may bring experience from **social work**, **health**, **education** and **lived experience of care**."	• **The chair** → the cursor clicks Join; the call opens with a "You + your assessor" tile and a "Chair" tile with a microphone icon. • **social work**, **health**, **education**, **lived experience of care** → one role tile pops in on each word, with an icon and role name, never a face. A small line: "Online or in person. The exact membership varies."
5 · Questions 0:24.5–0:32.5	"They may **ask** about your **motivation**, **strengths** and **support network**. The questions aren't designed to **catch you out**."	• **ask** → the grid slides left and a "Meeting chat" panel opens. **motivation**, **strengths**, **support network** → a question bubble drops in on each word. • **catch you out** → a green-tick chip: "Not designed to catch you out".
6 · The decision 0:32.5–0:38.5	"Then panel makes a **recommendation**, and the **agency decision maker** makes the **final decision**."	• **recommendation** → the "You + your assessor" tile steps out to the waiting room while panel discusses; a notification with a neutral bell icon lands: "Recommendation made", with "Panel recommends; it does not make the final decision." • **agency decision maker** → a card slides up with that title. **final decision** → "Final decision · sent to you in writing", with a neutral envelope icon. No tick and no outcome is shown, because panel can also recommend deferral or non-approval.
7 · Reassurance 0:38.5–0:44	"By this stage, your **assessor knows you well** and will **help you prepare**."	• **assessor knows you well** → the screen eases back to the assessor's message thread from beat 3. • **help you prepare** → a reply bubble: "Ask me anything before the day."
8 · Call to action 0:44–0:48.5	"Questions about the process? **Talk to the fostering team**."	• **Talk to the fostering team** → the panel tiles fade, leaving one "Organic Fostering team" tile; its mic unmutes and 0161 241 1332 types in beneath it.
9 · End card 0:48.5–0:51	"**Organic Fostering**."	• **Organic Fostering** → the logo builds above the tile with organicfostering.co.uk, the star badge "Rated Good by Ofsted · Inspected May 2025" and a small line: "GOV.UK says the full process can take up to eight months." Hold to the end.

Timing check: beats run 4.5 + 7.5 + 4.5 + 8 + 8 + 6 + 5.5 + 4.5 + 2.5 = 51 s, and each line fits its beat at 150 words a minute (the longest, beat 4, is 19 words in 8 s). **Cut-down (about 28 s):** beats 1, 4, 5, 8 and 9.

LOOK, MOTION AND SOUND

Night plum	Plum	Purple	Orange	Peach	Cream	Leaf
#2A1028 · call window	#5B174F · type	#B7006E · cues	#FF6411 · your tile, accents	#FFD4BA · canvas, icons	#FFFDFB · report, chat	#64A60B · ticks

- **Look:** a calm, generic video-call window in night plum on a warm peach canvas, with cream report and chat panels. Tiles show role icons and names only. No people, faces or photos, and no real meeting app's look or logo.
- **Type:** Nunito, the website's font, for captions, chat and tiles; Poppins for tiny labels.
- **Tone:** no courtroom cues: no gavel, no long table and no red "end call" button. Panel is shown as a conversation.
- **Motion:** the window rises on a soft spring; tiles pop into the grid one per word; the grid slides aside for the chat; the "You + your assessor" tile glides to the waiting room; the notification drops from the top; the tiles fade to one team tile. Slow push-ins and motion blur.
- **Sound:** the warm British narrator from the earlier voiceover versions, a soft join chime, gentle pops for tiles and chat bubbles, a light notification tone. Any music stays light and ducked under the voice.

Caption

Fostering panel sounds scary? Here's what actually happens. 💬

Panel is the final stage of assessment. You read and comment on your Form F report, your assessor prepares you, and the questions aren't designed to catch you out.

Panel recommends; the agency decision maker makes the final decision.

👉 Talk to the fostering team: link in bio · 0161 241 1332

#OrganicFostering #FosterCarer #FosteringUK #Manchester #NorthWest

Facebook: swap "link in bio" for https://organicfostering.co.uk/enquire-now, the site's own "Talk to the fostering team" link.

Lead form (mirrors the site's enquiry form)

- First name, last name, phone, email and postcode, then **"How can we help?"** with four of the site's seven options: I am beginning to explore fostering · I want to check whether I could foster · I am ready to discuss an application · Something else.
- Contact preference and best time to call, as on the site. If you add the optional comments box, show the site's warning above it: "Please do not include detailed information about a child, criminal matter, medical diagnosis or other highly sensitive information." Link organicfostering.co.uk/privacy-policy.
- **Thank-you screen:** "A member of our Manchester team will explain the next step without pressure or obligation."
- Runs as a standard Meta ad, no special ad category (no pay or job claims).

Comments: answer general questions about panel only, and move anything personal to a call. **Cover:** the meeting window with "Fostering panel · Stage 7 of 8".

PINTEREST AND SOURCES

- **Pinterest** (logged-out searches for "video call UI animation" and "meeting app UI motion design"; pin pages need a login): we borrow the tile grid, the floating control pill and a calm call window. We avoid stock faces, red hang-up buttons and copies of real meeting apps.
- **Panel:** organicfostering.co.uk/panel-and-approvals (checked 31 Oct 2026): every panel line in the script, including who may sit on panel (the site also lists safeguarding and fostering), "not designed to catch you out", "you and your assessor may leave while panel discusses", the agency decision maker, "your assessor knows you well" and the link "Talk to the fostering team".
- **Assessment and journey:** /fostering-assessments (read and comment on the Form F) and /your-journey-to-becoming-a-foster-carer (panel is stage 7 of 8; "up to eight months", from GOV.UK). **Homepage:** Ofsted line and phone. No allowance figures, statistics or approval promises are used.
