Home, in every language

Instagram & Facebook feed · 1080 × 1350 (4:5) · Black History Month 2026: "Honouring Our Communities"

CONCEPT

One front door. Many words for home.

The word *home* appears in the languages of Manchester's communities, taped like notes around an open front door. It shows Organic Fostering's strength, **cultural matching**, in one glance.

VISUAL

- Warm peach paper background (scrapbook style, a 2026 Pinterest trend)
- Bright orange front door, slightly open, warm light spilling out
- Hand-lettered notes: Ghar · Ilé · Bayt · Guri · Fie · Nyumba · Dom
- Magenta Poppins headline; no photos of real children

WHY IT WORKS

Other fostering brands post in May. In October, this post ties Black History Month to what makes Organic Fostering different.

CAPTION

Ghar. Ilé. Bayt. Home. 🧡

A new home should never mean losing who you are. We match every child with foster carers who honour their culture, faith, language and identity.

This Black History Month, we're honouring the carers who make that happen, and we're looking for more across Manchester and the North West.
