HOW TO USE THIS ON SHOOT DAY

If you are on set right now, go to **Section 07 (Shoot-day plan)** for the run sheet and shot lists. Then use the **"Shoot today"** box on each concept page in Section 04. Everything marked ★ TODAY should be filmed today, even if it is edited later, because it is either time-sensitive (Budget, Halloween deadline, MTD) or needs "AI-ready" footage from your office.

Film these first (most value for your time on set)

#	CONCEPT	WHY IT MUST BE SHOT TODAY
01	**The Door to Every Business in Bury** (reception comes alive)	Your hero brand video. It needs clean plates and stand-in takes of the real reception.
04	**Budget Day in 60 Seconds**	The Budget is on Wed 28 Oct. Film intros, outros and B-roll now, then add only the facts on the day.
03	**The Scariest Letter in Britain**	Halloween and the paper self-assessment deadline both fall on 31 Oct, so it must post by 30 Oct.
09	**MTD Wake-Up Call**	The next MTD quarterly update is due 7 Nov, so this must post the week of 2 Nov.
02	**The Shoebox Exorcism**	An evergreen viral skit. Post it now and repost it for the January rush.
05 · 07 · 08	Reaction library, Meet the Team, Say vs Think	Talking-head and team footage that will feed months of posts.

EXECUTIVE SUMMARY

01 Premium look, local humour, and tax info people pass on

RKN already has a strong brand promise sitting quietly on its own website: **"Not Your Everyday Accountant."** The identity is premium (black and gold, a monogram logo), but its Google reviews keep describing the team as **"professional, qualified and down to earth"** and say they **"took lots of pressure off"** clients. That gap between a luxury look and a friendly Bury team is the creative engine. Every video should look like a premium brand and sound like a Bury local.

"Accountants are boring": we're here to prove that wrong, one video at a time.

The strategy in one page

1 · Make it useful enough to save

Short, dated, one-point tax tips tied to real deadlines (Budget 28 Oct, the paper return deadline on 31 Oct, the MTD quarterly update on 7 Nov, the online deadline on 31 Jan). Useful content gets **saved and sent**, and sends and saves are the signals the platforms push hardest.

2 · Make it fun enough to share

Skits on universal pain points (the receipts shoebox, the brown envelope, "I'll send it tomorrow"), reaction videos that bust viral tax myths, and trend remixes. People share comedy that makes their friends feel seen.

3 · Make it local enough to belong

Bury Market quizzes, Bury business spotlights, town-centre B-roll. Local content gets shared by local people and featured businesses, and it pulls in the clients RKN actually wants: owners within driving distance of Millett House.

4 · Use AI for "wow", never for trust

Use Higgsfield for spectacle: filling an empty reception, receipts swirling into a golden tornado, horror atmosphere, trailer grades. Keep the trust elements real: your team, real reviews (with permission) and real advice. Label realistic AI content.

THE SHOOT-DAY GOLDEN RULE FOR AI

For every scene you plan to "add people to" with AI, film it **three ways**:

1. **Clean plate:** 15 seconds of the empty space on a locked-off tripod with exposure locked. This is for frame-first editing and video-edit models.
2. **Stand-in take:** the same framing with a team member doing the action (welcoming, handing over a coffee, walking in). **Genjutsu works best when it can *swap* something already in the shot**, so a stand-in gives it a person to replace, and you get natural motion and shadows for free.
3. **Moving version:** a slow gimbal push-in of the empty space, which you can edit with Seedance 2.5's video-edit mode or Kling 3.0 Omni Edit.

Also take **reference stills** of every person and prop (front, side, back). Genjutsu accepts up to 30 reference images per generation.

WHAT THE RESEARCH FOUND

02 RKN TODAY, AND WHAT WORKS FOR ACCOUNTANTS ONLINE

RKN brand audit (from rknaccountancy.co.uk)

Who you are

- **Location:** Millett House, Millett Street, Bury BL9 0JA. Open Mon–Fri, 9am–5:30pm.
- **Services:** tax (self-assessment, CT600, VAT, IHT, CGT, R&D, IR35, HMRC enquiries), bookkeeping and payroll (incl. CIS), business advisory (start-ups, forecasting, exit planning) and compliance (MTD, Companies House, AML).
- **20+ sectors listed**, including construction, automotive, healthcare and care homes, hospitality, property, e-commerce, tech start-ups, charities, sole traders, and **influencers & content creators**.
- **Brand:** black (#111) and gold (#E4BC54 / #CD9734) with the Inter typeface. The page copy promises to *"simplify the numbers"* and blends *"personal service with advanced cloud-based solutions."*

What clients say (13 Google reviews on the site widget)

- "Professional, qualified and **down to earth**"
- "Took lots of **pressure off** myself and my partner"
- "I **don't have to worry** about a single thing"
- "Regular **monthly and quarterly meetings**... prices are very fair"
- "Accountants who **actually care** about their client's business"

These themes are your storyline: calm, care and control. Videos should *show* them rather than just say them.

GAPS VIDEO CAN FILL

The **About Us page returns a 404**, **Journals says "Coming Soon"**, the site lists **no team members**, and the **social icons in the footer have no profile links**. Today's footage can fix all four: a team video on About, short tips embedded in Journals, and live social links.

What gets reach for accountancy content

FORMAT	EVIDENCE / EXAMPLE	HOW RKN USES IT
One tip, under a minute	Accounting-marketing playbooks recommend one rule plus one example in under a minute, dated so it doesn't mislead later. US CPA creator Logan Graf grew on TikTok and Reels by simplifying tax updates and busting myths.	"60-second tax fixes", Budget breakdowns, MTD explainers (Ideas 04, 09, 10)
Pain-point skits	The most-cited accounting skit topics are the receipts shoebox, the Sunday-night reconciliation and the surprise tax bill. Open with a situation the viewer already knows, not with a feature.	Shoebox Exorcism, Scariest Letter, Say vs Think (Ideas 02, 03, 08)
Character comedy	UK accountant creator Monica Geldart is profiled as dramatising client emails, deadlines and office culture with dry British humour, often in exaggerated characters.	Team characters, "What I say vs what I'm thinking"

FORMAT	EVIDENCE / EXAMPLE	HOW RKN USES IT
Myth-busting reactions	RSM found TikTok videos with 200,000+ views claiming that refusing to pay tax is "completely legal", and 600,000+ views suggesting holidays and meals count as business expenses. These are big audiences waiting for a correction.	"Accountant Reacts" stitch series (Idea 05)
Street interviews	Salary Transparent Street ("What do you do? How much do you make?") went viral from simple street questions and earned over $1m in its first full year (CNBC).	"Can I Claim It?" at Bury Market (Idea 06)
People and behind the scenes	Pew Research found the most popular creators post several times a week, and about 4 in 10 of their posts include speech, against 20% for the least popular.	Meet the Team, RKN: The Movie (Ideas 07, 12)

Algorithm signals to design for (2026)

Watch time and completion

Instagram ranks on predicted watch time and rewatches. TikTok leans heavily on completion rate. Short, tight edits with a loop back to the start help on both.

Sends and saves beat likes

DM shares ("sends") are widely reported as Instagram's strongest signal, and likes have been down-weighted. Design for *"send this to..."* moments.

Original and native

Reels with another platform's watermark lose reach, and Reels over 3 minutes aren't recommended to non-followers. Export clean files for each platform.

Third-party ranking-signal claims vary. Treat specific percentages as unverified, and treat your own Insights as the final word.

Dates to build content around

DATE	MOMENT	CONTENT ANGLE
Wed 28 Oct 2026	Autumn Budget	Same-day "what it means for you" videos for each audience (Idea 04)
Sat 31 Oct 2026	Halloween and the paper self-assessment deadline	Horror parody "The Scariest Letter in Britain" (Idea 03)
Sat 7 Nov 2026	MTD for Income Tax: second quarterly update deadline	Landlords and sole traders over £50k (Idea 09)
Fri 27 Nov 2026	Black Friday	"Black Friday deal: 100% off late-filing penalties... if you file early"
December	Christmas parties and gifts	£150-per-head annual function rule; £50 trivial benefits for staff gifts
1–31 Jan 2027	Online self-assessment deadline and payment (31 Jan)	"31 days to 31 January" daily countdown, plus reposts of the Shoebox video
April 2027	MTD threshold drops to £30,000	A new MTD wave reaching many more Bury sole traders and landlords

Check every date and rule against GOV.UK before posting. Tax content should always show the date it was made.

CONTENT STRATEGY

03 Positioning, Audiences and Pillars

POSITIONING STATEMENT

RKN is Bury's "Not Your Everyday Accountant": premium expertise with a down-to-earth Bury attitude. We take the stress out of tax, and we're not afraid to have a laugh while we do it.

Who we are talking to

AUDIENCE	WHAT KEEPS THEM UP AT NIGHT	CONTENT THAT HOOKS THEM
Sole traders and trades (builders, plumbers, CIS subcontractors)	Receipts chaos, self-assessment, MTD, "what can I claim?"	Shoebox skit, Bury Market quiz, 60-second tips
Landlords	MTD quarterly updates (over £50k now, £30k from April 2027), rental tax, CGT	MTD Wake-Up Call, Budget videos
Local SME owners (hospitality, care, auto, retail)	Cash flow, VAT, payroll, staff costs	Business Spotlight, Christmas party rules, Budget for employers
Content creators and influencers	"Do I pay tax on TikTok money or gifted products?"	The PR Package video, platform-income tips
Future team members	"Is this a good place to work?"	Meet the Team, RKN: The Movie, trend remixes

Language opportunity: Bury and wider Greater Manchester have large multilingual communities, including many Urdu and Punjabi speakers. If team members speak these languages, a bilingual tip series is a low-competition niche. Higgsfield's Dubbing and Sync Lipsync tools can produce versions from one take, but a fluent speaker must check every translation.

The four content pillars

40%
Educate
Tips, deadlines, myth-busting, Budget/MTD explainers. Builds trust and gets saves.

30%
Entertain
Skits, trends, AI "magic" moments, reactions. Builds reach and gets shares.

20%
Community
Bury Market, business spotlights, local events, client stories. Builds local love and gets collabs.

10%
Brand / BTS
Team, office, values, day-in-the-life. Builds trust and helps recruitment.

Recurring series (series build habits and followers)

"Can I Claim It?"
Weekly prop-based expense quiz, in the office or at Bury Market.

"Accountant Reacts"
Stitch the internet's worst tax advice and give the fix in 15 seconds.

"Bury Business Spotlight"
One local business, one money lesson, posted as a collab.

“What I Say vs What I Think”

Relatable accountant inner-monologue comedy.

“60-Second Tax Fix”

One rule, one example, one action. Dated.

“Sector Saturdays”

One tip for one of your 20+ sectors each week, which gives 20+ ready-made episodes.

Visual and audio identity for every video

- **Colour:** black and gold set dressing (gold pens, black folders, gold confetti). Grade warm.
- **Text:** Inter Bold captions, white with a gold highlight on the key word, kept inside the safe zone (not the bottom 20% or right edge).
- **Logo:** a small gold monogram in the corner, plus an end card for 1 second. Never let AI generate your logo; add it in the edit.
- **Signature sound:** a gold “ting” or cash-register chime whenever something gets sorted. Repeat it in every video so it becomes recognisable.
- **Sign-off line:** *“Not your everyday accountant.”* as the last spoken or on-screen line in every video.
- **Captions:** always burned in, since many people watch on mute.

Tone of voice (premium, but never stiff)

Do

- Talk like a Bury local explaining things to a mate: plain English, short sentences
- Laugh at *situations* (deadlines, shoeboxes, brown envelopes)
- Give one clear, specific action in every educational video
- Show real faces from the team, often
- Date every tax point and keep it accurate

Don’t

- Use jargon without translating it (“CT600” → “your company tax return”)
- Mock real clients, other firms or HMRC staff
- Promise savings, refunds or “loopholes”
- Let AI make the brand look fake, cheap or untrustworthy
- Chase every trend: skip ones that don’t fit an accountancy caption

THE 15 VIDEO CONCEPTS

04 Overview

HOW TO READ EACH CONCEPT PAGE

Hook = on-screen text and the first spoken line (the first 1–2 seconds decide everything). **Beats** = the edit structure. **Shoot today** = the exact clips to capture. **AI step** = which Higgsfield tool to use and how. **Why it can go viral** = the share mechanic. **Caption/CTA** = ready to paste.

HERO BRAND VIDEO · AI SHOWCASE

The Door to Every Business in Bury

★ TODAY | BRAND · COMMUNITY | 12–20S | TIKTOK · REELS · SHORTS · FACEBOOK | AI: HIGH

A locked-off shot of the **empty reception at Millett House**. The clock ticks to 9:00 and a team member opens the door. One by one, the room fills with the people RKN serves: a **builder in hi-vis** (construction/CIS), a **chef in whites** (hospitality), a **care manager with a lanyard** (healthcare), a **creator with a ring light** (influencers), a **landlord jingling keys** (property), a **car dealer with a key fob** (automotive). Each one is warmly welcomed, with a gold label naming their sector. Final wide shot: a full, smiling room, then the gold logo and "Not your everyday accountant."

ON-SCREEN HOOK

"Every business in Bury walks through this door eventually..."

ALTERNATIVE

"POV: it's 9am at Bury's busiest accountants 👀"

BEATS

1. **0–2s:** empty reception, close-up of the clock going 8:59 → 9:00 (tick plus door chime).
2. **2–10s:** quick cuts as each new person "appears" with a whoosh and a gold sector label.
3. **10–15s:** a **real** team member greets and shakes hands (the human anchor).
4. **15–18s:** wide shot of the full room, everyone turns to camera and smiles.
5. **18–20s:** logo end card, then loop back to the empty room.

SHOOT TODAY

- [ ] Tripod, locked exposure and focus: 15s empty plates in wide, desk-medium and door angles
- [ ] The same three angles with team stand-ins doing the welcome or handshake
- [ ] A slow gimbal push-in through the empty reception
- [ ] Clock close-up, door opening, door-chime audio
- [ ] Reference stills of the hi-vis vest, hard hat, chef whites, keys and ring light
- [ ] Clean logo-wall close-up for the end card

AI STEP: HIGGSFIELD

- **Most control (frame-first):** export a frame from the clean plate. Use **Nano Banana Pro** (or **Nano Banana 2** with an inpaint mask) to add each person. Then animate with **Kling 3.0**, using the empty frame as the *start* and the filled frame as the *end*, so people "materialise" while the room stays put.
- **Keep your real camera move:** run the push-in plate through **Seedance 2.5 (Video Edit mode)** or **Kling 3.0 Omni Edit** with wardrobe reference images.
- **Using the stand-in takes: Genjutsu Object Swap** (4–30s clip, up to 30 references, up to 1080p) recasts your stand-ins as the builder, chef and so on, while keeping their real motion and shadows.

```
Using this exact photo of our reception, add a smiling builder in a hi-vis vest and white hard hat
standing at the front desk, being welcomed. Keep the room, furniture, lighting, camera angle, logo and
all signage exactly the same. Photorealistic, natural skin, realistic floor shadows.
```

WHY IT CAN GO VIRAL

- A transformation reveal with a satisfying loop.
- "Which one are you?" sector call-outs make people comment and tag friends.
- Local pride: Bury people share Bury content.
- Remake it seasonally (Christmas decorations, January-rush chaos).

CAPTION / CTA

Builders, chefs, landlords, creators, carers... if you run it in Bury, we've probably done the books for it. Which one are you? 👇 Tag a Bury business owner.

PAIN-POINT SKIT · SATISFYING TRANSFORMATION

The Shoebox Exorcism

★ TODAY | ENTERTAIN | 10–20S | TIKTOK · REELS · SHORTS | AI: MEDIUM

A client (played by a team member) slams a battered shoebox overflowing with crumpled receipts onto the desk: *"It's all in there."* The accountant stays calm, cracks their knuckles and **snaps their fingers**. The receipts burst upward, swirl into a **golden tornado** and land as one neat black-and-gold folder with a gold ✅. Final line: *"Filed. Before the 31st."*

ON-SCREEN HOOK

"POV: you bring your accountant a shoebox on January 30th 📦"

ALTERNATIVE

"Every accountant has met this client."

BEATS

1. **0–2s:** the box SLAMS down and receipts spill (practical effect).
2. **2–5s:** accountant's deadpan face, then a slow crack of the knuckles.
3. **5–7s:** finger-snap close-up.
4. **7–12s:** AI receipt tornado turning into a neat folder.
5. **12–15s:** the client's jaw drops, the accountant smiles, gold "ting."

SHOOT TODAY

- [ ] Wide two-shot of the slam (3 takes)
- [ ] Close-up of receipts spilling across the desk
- [ ] Finger snap: hand close-up (3 takes, with the sound)
- [ ] Locked-off desk plates: with the box, and clean with the neat folder (same framing)
- [ ] A practical throw: toss the receipts in the air (can be reversed in the edit)
- [ ] Use **blank or fake receipts only**, never real client paperwork

AI STEP: HIGGSFIELD

- **Kling 3.0** with **start frame** = desk with the shoebox and **end frame** = desk with the neat folder. The model fills in the magic in between.
- Alternatives: **Veo 3.1** for extra realism, or **Draw to Video** to sketch the swirl path.
- Upscale the final shot with **Video Upscale** if you draft at a low resolution.

```
Static camera. Hundreds of paper receipts burst out of the shoebox, swirl upward into a glowing golden tornado above the desk, then fold neatly into a single black folder with a gold tick. The office, desk and lighting stay the same. Cinematic, magical, realistic paper physics, no text.
```

WHY IT CAN GO VIRAL

- The shoebox is one of the most-used accountant pain points: universally relatable.
- The satisfying chaos-to-order payoff earns rewatches.
- A built-in send trigger: everyone knows "the shoebox friend."
- Evergreen: repost it on 1 January for the deadline rush.

CAPTION / CTA

Send this to the friend who keeps their receipts in a shoebox 📦😂 Tip: snap receipts into an app the day you get them, and future you will thank you.

SEASONAL HORROR PARODY · DEADLINE REMINDER

The Scariest Letter in Britain

★ TODAY | POST 29–30 OCT | 20–30S | TIKTOK · REELS · FACEBOOK | AI: MEDIUM

Halloween (31 Oct) is also the **paper self-assessment deadline**. A horror-film parody: a dark office, a flickering lamp, rain on the window. The letterbox creaks. A **brown envelope** slides in, slowly. A team member screams in slow motion. A whisper: *"...self... assessment..."* Then the lights snap on and the RKN accountant calmly picks it up: *"Relax. We filed yours in September."*

ON-SCREEN HOOK

"The scariest thing in Britain isn't a ghost... 👻"

END CARD (EDUCATIONAL STING)

"Paper deadline: 31 Oct · Online: 31 Jan · Miss it: £100 penalty"

BEATS

1. **0–3s:** stormy exterior of the office at night (AI) and a flickering lamp.
2. **3–8s:** letterbox creak and the envelope sliding in.
3. **8–12s:** slow-motion scream and a dropped mug.
4. **12–18s:** lights on, calm accountant, punchline.
5. **18–25s:** deadline facts on a gold card.

SHOOT TODAY

- [ ] Blinds closed, overheads off, one practical lamp (flick the switch for the flicker)
- [ ] Letterbox or door close-up with the envelope sliding in (pull it with fishing line, or film it in reverse)
- [ ] Scream reaction at 60fps for slow motion
- [ ] The calm reveal with full lights, same framing
- [ ] An exterior photo of Millett House (for the AI night-storm shot)
- [ ] A **plain** brown envelope, with no HMRC logo

AI STEP: HIGGSFIELD

- **Cinema Studio Video 3.0** with **genre: horror**. Use your exterior photo as the start image and turn it into a stormy night with lightning.
- **Kling 3.0 Omni Edit** on the office plate: add fog creeping across the floor and a shadowy hand on the wall.
- **Genjutsu Styles** or Restyle for a vintage-horror look on the "scary" half only.
- **Generate Audio** for creepy ambience and the whisper.

```
Same office, same camera. Thin fog creeps along the floor, the desk lamp flickers, a long shadow of a hand slowly crawls across the back wall. Horror film lighting, cold blue tones, subtle, realistic.
```

WHY IT CAN GO VIRAL

- It rides Halloween trend traffic while delivering a real deadline.
- "Send to the friend who still hasn't filed": a strong send trigger.
- Genre parody plus British dread of brown envelopes makes it very shareable in the UK.

CAPTION / CTA

Happy Halloween from the only accountants in Bury who aren't scared of brown envelopes 🎃 Paper returns are due 31 Oct, online by 31 Jan. Still not filed? WhatsApp us today.

TIMELY EXPLAINER · AUTHORITY

Budget Day in 60 Seconds

★ TODAY | BUDGET: WED 28 OCT 2026 | 45–60S | ALL PLATFORMS + LINKEDIN | AI: LOW

A fast "breaking news" format published **on Budget day or the morning after**. Make one short video **per audience**: self-employed, landlords, employers, families and savers. Each has a gold "BUDGET 2026" lower third, **three points at most**, and a "what to do now" close. Speed wins: the first clear local explainer gets the shares.

ON-SCREEN HOOK

"The Budget just dropped. Here's what changes if you're SELF-EMPLOYED."

ALTERNATIVE

"Landlords: 3 things from today's Budget you need to know."

BEATS

1. **0–3s:** "BREAKING" sting with the presenter at the desk.
2. **3–45s:** three points, each with a gold number card.
3. **45–55s:** "What to do now" (one action).
4. **55–60s:** "Questions? Comment and we'll answer in a video."

SHOOT TODAY (TEMPLATE)

- [ ] Presenter intro and outro takes in 2 framings (medium and close)
- [ ] "Breaking" walk-in to the desk
- [ ] B-roll: calculator, typing, pound coins, notebook titled "Budget 2026", Bury streets
- [ ] Reaction shots (shock, relief, thinking) for re-use
- [ ] On 28 Oct: film **only** the 3 points on a phone (about 20 minutes)

AI STEP: HIGGSFIELD

- **Nano Banana Pro** or **GPT Image 2** for a thumbnail: a black-and-gold desk, a red briefcase, "BUDGET 2026" text.
- **Dubbing** and **Sync Lipsync 3** for Urdu, Punjabi or Polish versions. A fluent team member must check each one.
- **Reframe**: 9:16 for Reels and TikTok, 1:1 or 16:9 for LinkedIn and YouTube.
- **Never** generate the Chancellor or any real politician with AI. Use real news footage only where you hold the rights.

WHY IT CAN GO VIRAL

- Huge search and feed demand on Budget day, and you can be first.
- Audience-specific titles get forwarded ("this one's for you, landlord mate").
- Strong on LinkedIn and Facebook with business owners.
- Comment questions become 5–10 follow-up videos.

REACTION SERIES · MYTH-BUSTING

Accountant Reacts: The Internet's Worst Tax "Hacks"

★ TODAY | SERIES | 20–40S | TIKTOK (STITCH) · REELS · SHORTS | AI: LOW

Use TikTok's **Stitch** or green-screen feature to react to viral bad tax advice: "put your holiday through the business," "buy a G-Wagon and write it off," "refusing to pay tax is legal." Each episode follows the same structure: **the claim → a face reaction → "Here's the truth in 15 seconds" → an HMRC risk rating 🔥🔥🔥.**

ON-SCREEN HOOK

"This tax 'hack' has 600,000 views. Here's why it could cost you."

ALTERNATIVE

"An accountant rates TikTok tax advice (it's not good) 😬"

BEATS

1. **0–3s:** the stitched claim (native Stitch).
2. **3–5s:** reaction (slow blink, facepalm).
3. **5–25s:** the truth: one rule, one example.
4. **25–30s:** risk rating card and "follow for part 2."

SHOOT TODAY: REACTION LIBRARY

- [ ] 10–15 short reactions: laugh, facepalm, head shake, slow blink, coffee spit-take, "absolutely not" finger wag, nodding approval
- [ ] 9:16 framing with headroom for on-screen text
- [ ] Verdict shot at the desk holding black-and-gold **MYTH / FACT** paddles
- [ ] A "part 2" teaser line

AI STEP: HIGGSFIELD (OPTIONAL)

- Mostly real footage, since credibility matters here.
- Optional comedy cutaway made with **Kling 3.0**: "a giant golden calculator falls from the sky onto a sports car" for the G-Wagon episode.
- **Virality Predictor** to compare two hook versions before posting.

WHY IT CAN GO VIRAL

- It borrows the audience of videos that already have 200k–600k+ views (per RSM's research).
- Controversy plus correction drives comments and debate.
- It positions RKN as the trusted voice against "finfluencer" misinformation.
- An unlimited series: there is always more bad advice online.

STREET INTERVIEW · COMMUNITY SERIES

"Can I Claim It?" Bury Market Edition

MARKET DAY | COMMUNITY · EDUCATE | 30–60S | TIKTOK · REELS · FACEBOOK | AI: MINIMAL

A street quiz at **Bury Market**, famous for its 350+ stalls and Bury black pudding. The presenter carries a gold-flagged mic and a bag of props, holds each one up and asks: *"If you're self-employed, can you claim this?"* The props are a pack of black pudding, work boots, a gym membership card, a phone, a Netflix remote, van keys and a dog lead. Correct answers win an RKN prize, ideally **bought from a market stall** to make it a collab.

ON-SCREEN HOOK

"We asked Bury Market: can you claim THIS on your taxes?"

ALTERNATIVE

"Can a Bury builder claim black pudding as a business expense? 🤔"

BEATS

1. **0–2s:** the prop reveal plus the question.
2. **2–20s:** 3–4 people guess (the funniest answers first).
3. **20–30s:** the accountant's verdict with a gold ✅/❌ stamp and one line of why.
4. **30–35s:** prize moment and a "next week's prop is…" tease.

SHOOT (TODAY OR NEXT MARKET DAY)

- [ ] **Today:** intro at the RKN door ("We're taking a bag of random stuff to Bury Market…") and a close-up prop reveal
- [ ] At the market: 2 cameras (wide and close) plus wireless lav mics
- [ ] Branded mic flag, prop bag, prizes
- [ ] **Signed release forms** from everyone featured; avoid filming children
- [ ] Check outdoor market days first (it is typically busiest on market days such as Wed, Fri and Sat)

AI STEP

Keep this one real; authenticity is the point. Add gold ✅/❌ stamps and confetti in the edit. Optionally use **Nano Banana Pro** for an episode thumbnail and **Reframe** for a 16:9 YouTube compilation.

WHY IT CAN GO VIRAL

- A proven viral format: street interviews (e.g., Salary Transparent Street).
- Local faces mean local shares, and people tag the friend who was filmed.
- It teaches without lecturing, and everyone plays along at home.
- Endless episodes: Ramsbottom, Prestwich, Bolton, Manchester.

PEOPLE-FIRST BRAND SERIES

Meet the Team: Not Your Everyday Accountants

★ TODAY | BRAND | 7–10S PER PERSON | REELS · TIKTOK · LINKEDIN · WEBSITE | AI: MEDIUM

Each team member gets a hero intro: a slow-motion walk toward camera through the office, then a stop and a smirk. A **freeze frame** then transforms into a black-and-gold **collectible trading card** with name, role, *"Superpower: spots a missed expense from 10 metres"* and *"Kryptonite: 'I'll send the receipts tomorrow'."* Post them one at a time as a series, then as a carousel, then as an About page video.

ON-SCREEN HOOK

"'Accountants are boring,' they said." (cue hero walk)

ALTERNATIVE

"Meet the team who'll never judge your shoebox 📦"

BEATS

1. **0–2s:** hook text over a dramatic walk.
2. **2–5s:** slow-motion walk and the stop.
3. **5–8s:** freeze, then the morph into a trading card (stats animate in).
4. **8–10s:** a 1-line fun fact to camera.

SHOOT TODAY

- [ ] Each person: a hero walk on a gimbal at 60fps
- [ ] 3 poses each: arms crossed, calculator spin, pen click
- [ ] A 1-line fun fact to camera
- [ ] Reference stills (front, side, back) on a plain background
- [ ] A group walk-out of the building (for the series finale)
- [ ] **Written consent** from each person for AI use of their likeness

AI STEP: HIGGSFIELD

- **Nano Banana Pro** or **GPT Image 2** (both good at text) to design the trading card from the freeze frame.
- **Kling 3.0** start/end frames to morph the real freeze frame into the card.
- Bonus: **Genjutsu Motion Transfer** with a trending motion preset (e.g., "Studio Pop Duo") using each team member's own photo, for a dance version people love to share.

```
A premium collectible trading card in black and gold foil. The person from the reference photo stands in the centre, face exactly as in the photo. Title "THE TAX WHISPERER". Stats: Superpower — finds missed expenses. Kryptonite — "I'll send it tomorrow". Elegant art-deco border, studio lighting.
```

WHY IT CAN GO VIRAL

- People follow people, and faces build trust faster than logos.
- It proves the reviews' "down to earth" claim on screen.
- Each team member shares their own video with their network.
- It doubles as recruitment content.

RELATABLE CHARACTER COMEDY · SERIES

What I Say vs What I'm Thinking

★ TODAY | ENTERTAIN | 15–25S | TIKTOK · REELS · SHORTS | AI: MEDIUM

The accountant smiles politely on a client call: *"No problem at all, send them over whenever!"* Cut to **"what I'm thinking"**: the same person in the same framing, **restyled into a cartoon** with a storm cloud overhead, internally screaming *"IT'S THE 30TH OF JANUARY, DAVE."* Make five lines per episode.

ON-SCREEN HOOK

"What accountants SAY vs what we're THINKING 😅"

SCRIPT LINES (PICK 5)

"Oh, just a few receipts?" · "You bought a boat... for the business?" · "Of course we can look at 2019" · "No, VAT isn't optional" · "Yes, the deadline's the same date every year" · "Sure, send it via WhatsApp voice note"

BEATS

1. **0–2s:** the hook text and the first polite line.
2. **2–4s:** a hard cut to the cartoon "thinking" version.
3. Repeat ×5, speeding up each time.
4. **End:** back to the polite smile and the gold "ting."

SHOOT TODAY

- [ ] Each line twice in **identical framing** on a tripod: a polite take (natural) and a "thinking" take (dramatic, close)
- [ ] Clean audio for each take
- [ ] Phone or headset prop for the "client call"
- [ ] Try 2–3 team members, since different personalities make a series

AI STEP: HIGGSFIELD

- **Genjutsu Styles** to redraw only the "thinking" takes in a named look (e.g., a toy-CGI or cartoon style) while keeping the exact motion and timing.
- **Voice Change** for a dramatic inner-voice tone.
- **Kling 3.0 Omni Edit**: "add a small dark storm cloud with lightning above the person's head."

WHY IT CAN GO VIRAL

- Character comedy is what UK accountant creators such as Monica Geldart are known for.
- Business owners laugh at themselves, and other accountants share it widely.
- The polite-versus-cartoon contrast is visually striking, even on mute.

CAPTION / CTA

We love you, we promise ❤️ But please... send the receipts 😂 Which one have you said to your accountant? 👇

URGENT EXPLAINER · LANDLORDS AND SOLE TRADERS

The MTD Wake-Up Call

★ TODAY | POST WEEK OF 2 NOV | 25–40S | ALL PLATFORMS + LINKEDIN + FACEBOOK | AI: MEDIUM

Making Tax Digital for Income Tax started on 6 April 2026 for self-employed people and landlords with qualifying income over **£50,000**. The **next quarterly update is due 7 November 2026**, and the threshold falls to **£30,000 in April 2027** and £20,000 in April 2028. Skit: a landlord asleep on the sofa surrounded by keys and paperwork. The alarm clock flashes **"7 NOV."** Their phone buzzes, they panic, and then the RKN accountant **appears in a burst of gold**, holding a phone with MTD software: *"Quarterly update? Sorted."* Then three quick facts.

ON-SCREEN HOOK

"Landlords: earn over £50k? HMRC now wants to hear from you every 3 months."

ALTERNATIVE

"If you're self-employed in Bury, April 2027 is coming for you too."

BEATS

1. **0–3s:** the alarm clock "7 NOV" and the landlord jolting awake.
2. **3–6s:** gold-burst entrance (AI).
3. **6–30s:** 3 facts on gold cards: who, when, what to do.
4. **30–35s:** "Not sure if it's you? WhatsApp us."

SHOOT TODAY

- [ ] Sofa scene (meeting-room sofa or reception) with keys and papers
- [ ] Alarm clock and phone-notification close-ups
- [ ] An empty plate of the spot where the accountant "appears," then the accountant stepping in (same framing)
- [ ] Talking head: 3 facts, each as a separate take

AI STEP: HIGGSFIELD

- **Kling 3.0** start frame = empty spot, end frame = accountant standing there. Prompt for a gold-dust burst entrance.
- Or browse Higgsfield's **Viral effects presets** for a ready-made teleport or particle effect.
- **Nano Banana Pro** for a clean timeline infographic: £50k (2026) → £30k (2027) → £20k (2028).

```
Static camera, same room. A swirl of glowing gold dust spirals up from the floor and the person materialises from it, standing confidently and holding a phone. Realistic lighting, magical but subtle, no text.
```

WHY IT CAN GO VIRAL

- A specific number plus a named audience plus a deadline: very high saves.
- Landlords forward it to other landlords (a strong send trigger).
- Easy to spin into an "MTD in 30 seconds" series ahead of April 2027.

NICHE EXPLAINER · CREATORS & INFLUENCERS

Free PR Package? HMRC Might Call That Income

★ TODAY | EDUCATE · ENTERTAIN | 20–35S | TIKTOK · REELS | AI: HIGH

RKN lists **Influencers & Content Creators** as a sector, so speak to them in their own format. A creator does a classic, excited unboxing of a PR package: *"Omg thank you so much!"* They lift out the product, and it has **turned into a gold calculator** (or an RKN accountant pops out of the box): *"Lovely. Have you declared it?"* Then three tips: **gifted products received for promotion can be taxable income**; the **£1,000 trading allowance**; and keeping records across every platform.

ON-SCREEN HOOK

"Got free stuff from a brand? HMRC might call it income 👀"

ALTERNATIVE

"Creators: your PR haul might come with a tax bill."

BEATS

1. **0–3s:** an over-the-top excited unboxing.
2. **3–6s:** the swap reveal (AI) and the creator's confused face.
3. **6–28s:** accountant explains 3 tips (cards).
4. **28–32s:** "Creators, follow for more."

SHOOT TODAY

- [ ] Ring-light unboxing set: a PR-style box with tissue paper
- [ ] A hands-only close-up of lifting a generic product (4–15s clip for Genjutsu)
- [ ] The creator's confused reaction
- [ ] Reference stills of the gold calculator or tax-form prop
- [ ] Talking head: 3 tips

AI STEP: HIGGSFIELD GENJUTSU

- **Genjutsu "Unboxed Item Swap"** is in Higgsfield's Genjutsu *Trending* gallery right now (Oct 2026). It is built for exactly this reveal.
- Or use **Genjutsu Object Swap** on your own clip with references of the gold calculator.
- **Genjutsu Lite** is faster and cheaper (up to 15s at 720p/1080p) for testing before the final render.

```
Replace the product being lifted out of the box with the gold calculator from the reference images. Keep the hands, the box, the tissue paper, the motion, the lighting and the background exactly the same.
```

WHY IT CAN GO VIRAL

- Creators are a huge, very online audience who share content about their own industry.
- Meta-humour: an unboxing about unboxings.
- Under-explained topic, so it earns saves and DMs.

CAPTION / CTA

Creators 📦 That PR box might not be as "free" as you think. Gifts received for promotion can count as income, so keep records! Earn from TikTok, YouTube or Instagram? We specialise in creator tax.

COMMUNITY COLLAB SERIES

Bury Business Spotlight

OPENER TODAY | COMMUNITY | 30–45S | REELS (COLLAB) · TIKTOK · FACEBOOK · LINKEDIN | AI: LOW

A weekly or fortnightly series featuring one **Bury business**: ideally a happy client willing to appear, or simply a local favourite. Format: walk in, the owner's story in one line, the best thing they make or sell, and **one money lesson they learned the hard way**. Post as an **Instagram Collab** so it appears on both profiles. Start with clients who already praise you publicly (several of your Google reviewers are local businesses), with their permission.

ON-SCREEN HOOK

"This Bury business has been going [X] years. Here's their #1 money lesson."

SERIES OPENER (FILM TODAY)

"Every week we're spotlighting a Bury business. Nominate one below 👇"

BEATS

1. **0–3s:** the best-looking product or action shot first (sizzle, sparks, a fresh cut).
2. **3–10s:** owner intro with an animated gold map pin of Bury.
3. **10–30s:** their story and the money lesson.
4. **30–40s:** "Go visit them at [address]" and the RKN sign-off.

SHOOT TODAY

- [ ] Series opener at the RKN door (presenter walks out: "Let's go meet Bury's best businesses")
- [ ] Town-centre B-roll: Kay Gardens, the Robert Peel statue, Bury Market, the Rock, the East Lancashire Railway station
- [ ] A gold "Spotlight" transition: presenter spins toward the lens
- [ ] **Book the first 3 businesses** before you leave

AI STEP: HIGGSFIELD

- **Nano Banana Pro**: a stylised black-and-gold illustrated map of Bury town centre with a glowing gold pin. Then **Kling 3.0** for a slow camera fly-in to the pin, used as a reusable series opener.
- **Reframe** to cut 9:16, 1:1 and 16:9 versions for each platform.

WHY IT CAN GO VIRAL

- Borrowed audience: the featured business shares it to their customers.
- Collab posts appear on both profiles.
- Nominations drive comments, and comments drive reach.
- It builds goodwill and referrals in the local business community.

BEHIND THE SCENES · TRAILER PARODY

RKN: The Movie (Official Trailer)

★ TODAY | BRAND · ENTERTAIN | 30–45S | ALL PLATFORMS · PIN TO PROFILE | AI: MEDIUM

A "day in the life" shot as an **epic blockbuster trailer**. A deep voice narrates: *"In a town... where receipts go missing... and deadlines never sleep... one team stands between you and HMRC penalties."* Slow-motion walks, dramatic stapler close-ups, a coffee pour, laptop glow on faces, a team huddle, a heroic press of **SUBMIT**. Title card: *"RKN. Not your everyday accountant. Coming to a deadline near you."*

ON-SCREEN HOOK

Black screen: "In a world where receipts go missing..."

CLOSING TITLE

"Coming to a deadline near you. 31.01.2027"

BEATS

1. **0–4s:** black screen, narrator, trailer "BRAAAM."
2. **4–20s:** rapid dramatic B-roll, cut to the beat.
3. **20–30s:** team slow-walks out of Millett House.
4. **30–38s:** SUBMIT, then the title card.
5. **38–45s:** a blooper button (someone tripping or laughing).

SHOOT TODAY

- [ ] Team arriving at Millett House (exterior) and a door-opening silhouette
- [ ] 60fps: coffee pour, pen click, stamp, Enter key, papers landing
- [ ] The team looking up in unison, a high-five, the huddle
- [ ] A group slow-walk toward camera (outside)
- [ ] Lights off at 5:30pm as the final shot
- [ ] Keep the bloopers rolling

AI STEP: HIGGSFIELD

- **Cinema Studio 4.0** or **Cinema Studio Video 3.0** (genre: *epic*) from a photo of Bury town centre: a sweeping dusk establishing shot.
- **Genjutsu Restyle** or Styles for a blockbuster colour grade across the montage.
- **Generate Audio** for the narrator voice and trailer hits. **FPS Boost** for buttery slow motion.

WHY IT CAN GO VIRAL

- Trailer parodies are evergreen and instantly recognisable.
- The comedy contrast of epic treatment for "boring" accounting.
- The perfect pinned first video for new profile visitors.
- Great for the website homepage and recruitment.

EMOTIONAL TRANSFORMATION · SOCIAL PROOF

Client Glow-Up: Before & After RKN

TODAY IF POSSIBLE | BRAND · TRUST | 15–25S | REELS · FACEBOOK · LINKEDIN | AI: MEDIUM

A clearly labelled **dramatisation** built on themes from your real reviews: *"took lots of pressure off," "I don't have to worry about a single thing," "regular monthly and quarterly meetings."* **Before**: black and white, rain on the window, head in hands, piles of paper, a buzzing phone. **After** (a match cut on the same framing): warm gold light, a tidy desk, a monthly catch-up meeting, a smile. It ends with a **genuine review quote** on screen (with the reviewer's permission) and the star rating.

ON-SCREEN HOOK

"What working with the right accountant actually feels like."

ALTERNATIVE

"January without an accountant vs January with RKN."

BEATS

1. **0–6s:** "Before": grey, stressed, rain.
2. **6–7s:** a gold wipe transition.
3. **7–15s:** "After": same angle, calm and golden.
4. **15–20s:** the real review quote with stars.

SHOOT TODAY

- [ ] The same shot twice on a locked tripod: a messy "before" and a tidy "after"
- [ ] Actor: a team member, or a real client who agrees on camera
- [ ] A meeting-room "monthly catch-up" scene
- [ ] A phone-buzzing close-up

AI STEP: HIGGSFIELD

- **Seedance 2.5 (Video Edit)** or **Kling 3.0 Omni Edit**: "make it heavy rain outside the window with grey overcast light" (before) and "warm golden-hour sunlight through the window" (after).
- **Genjutsu Restyle** for the desaturated versus warm treatment.

WHY IT CAN GO VIRAL

- Transformation stories are among the most-watched formats.
- It sells the feeling (relief), not the service.
- Real review text adds credibility that ads can't buy.

CAPTION / CTA

"Took lots of pressure off myself and my partner." ❤️ That's why we do this. Ready for a calmer January? Message us.

WEEKLY TREND-JACKING WITH GENJUTSU

Trend Remix: Office Edition

★ TODAY | ENTERTAIN | 7–15S | TIKTOK · REELS | AI: HIGH

Each week, take a trending motion or meme and give it an accountancy caption. A team member performs a simple version in the office, then **Genjutsu** remixes it: **Motion Transfer** onto a stylised character, or **Object Swap** to change the set. Example: Genjutsu's trending **"Luxury Sedan Arrival"** preset with the caption *"Accountants arriving at work on 1 February after filing everyone's returns."*

CAPTION-MEME HOOKS

"Accountants on 1 February:" · "Me when a client sends receipts BEFORE I ask:" · "HMRC deadline in 1 hour, me:"

GENJUTSU TRENDING PRESETS (SEEN 21 OCT 2026)

Luxury Sedan Arrival · Street Style Swap · Rug Transition Swap · Studio Pop Duo · Boutique Terrace Dance · Football Showstopper · Unboxed Item Swap

HOW IT WORKS

1. Check TikTok Creative Center and the Genjutsu Trending gallery on Monday.
2. Pick 1 trend that fits an accountancy caption.
3. Use one of today's motion clips (or film a 4–15s phone clip).
4. Remix in Genjutsu or Genjutsu Lite, and post within 48 hours.

SHOOT TODAY: MOTION LIBRARY

- [ ] 6–8 short full-body clips (4–15s): walk-in, spin, point at camera, celebratory fist-pump, lean back in chair, dramatic turn, simple dance step
- [ ] Plain background, even light, full body in frame
- [ ] Reference stills of each performer
- [ ] Office "sets" for swaps: empty desk, doorway, reception

AI STEP: HIGGSFIELD

- **Genjutsu Motion Transfer**: keeps the motion, camera and timing and rebuilds everything else from your references.
- **Genjutsu Object Swap**: changes a selected character, outfit, product, location or object and keeps the rest.
- **Genjutsu Lite** for cheap, fast weekly tests. **Kling 3.0 Motion Control** as an alternative.

WHY IT CAN GO VIRAL

- Trends come with built-in algorithmic tailwind and audience familiarity.
- Fast to make, and a library of motion clips lets you react within hours.
- It humanises the firm and attracts younger clients and staff.

MUSIC RULE

Business accounts must use the **TikTok Commercial Music Library** or Meta's licensed sound collection. Many trending sounds are **not** cleared for business use, so recreate the trend with a licensed track or original audio.

15

SATISFYING / ASMR · BRAND TEXTURE

The Most Satisfying Sounds in Accountancy

★ TODAY | ENTERTAIN · BRAND | 15–25S | TIKTOK · REELS · SHORTS | AI: LOW

15–25 seconds of crisp, satisfying close-ups with no talking: a **gold pen signature**, a stamp reading **FILED**, calculator tape printing, receipts squared into a neat stack, a binder clicking shut, a stapler *chunk*, a laptop lid closing, and a final **Submit** click with a gold sparkle ✨. Loop it perfectly so it plays again.

ON-SCREEN HOOK

"The most satisfying sound in Bury: your tax return being filed ✅"

ALTERNATIVE

"Accountant ASMR (turn your sound on 🔊)"

BEATS

1. 8–10 shots of 1.5–2.5s each, cut on the sound.
2. Build from messy to tidy.
3. End on Submit, the gold sparkle, then cut straight back to the first shot (a loop).

SHOOT TODAY

- [ ] Macro or close-up shots on a black desk mat with gold props
- [ ] Office **silent**, phone or lav mic 20–30cm from each sound
- [ ] 60fps for slow-motion options
- [ ] 3 takes of each action; clean hands, neat nails
- [ ] No real client names or figures on any paper or screen

AI STEP: HIGGSFIELD

- **FPS Boost** and **Video Upscale** for ultra-smooth, crisp slow motion.
- **Draw to Video** or **Kling 3.0** to add drifting gold particles to the final Submit moment.

WHY IT CAN GO VIRAL

- Satisfying and ASMR clips earn rewatches, which feed watch time and completion.
- No language barrier and no talking needed.
- Cheap filler between bigger productions, and it reinforces the black-and-gold look.

CAPTION / CTA

Sound on 🔊 Nothing beats the sound of a return filed early. Want to hear yours? 😉

05 10 QUICK-FIRE IDEAS FOR THE GAPS

Low-effort ideas you can shoot from today's talking-head setup or a phone in 10 minutes. Use them between the bigger productions to keep posting consistently.

#	IDEA	WHAT IT IS
A	**"Why I started RKN"**	The founder's origin story to camera (60–90s). Founder stories build huge trust. Film it today if the founder is on set.
B	**Reply-to-comment Q&A**	Answer one viewer question per video using the platform's "reply with video" feature. Every comment becomes content.
C	**"Rate my expense 1–10"**	Score real-world claim ideas ("home office: 8/10, with conditions"). Fast and interactive.
D	**The Christmas party rule**	The £150-per-head annual function exemption explained with tinsel and gold baubles (December).
E	**Tax-smart staff gifts**	The £50 trivial benefits rule for non-cash gifts (December). "Your team's Christmas gift could be tax-free."
F	**"31 days to 31 January"**	A daily January countdown: one tip a day, with the same opening shot and a changing gold number.
G	**HMRC jargon in 5 seconds**	"UTR? CT600? PAYE? Here's what they mean." Fast, savable mini-glossary.
H	**Guess the penalty**	"How much is a late self-assessment fine?" Reveal: £100 straight away, even if you owe nothing.
I	**Sector Saturdays**	One tip for one of your 20+ sectors each week (CIS for builders, VAT for restaurants, R&D for tech).
J	**Community greetings**	Team greetings for Christmas, Eid, Diwali and New Year with AI snow, lights or lanterns added to the reception plate.

Black Friday (27 Nov) joke post: "Black Friday deal: 100% off late-filing penalties… when you file early."

06 Adding people, props and spectacle to real footage

AN HONEST NOTE ON GENJUTSU

Higgsfield Genjutsu is a video-to-video tool. **Object Swap** changes a selected character, outfit, product, location or object and keeps the rest of the shot. **Motion Transfer** keeps the motion, camera and timing and rebuilds everything else from your references. It accepts a 4–30s source clip and up to 30 reference images, and outputs up to 1080p. Higgsfield's own descriptions focus on *replacing or changing* what is already in the shot, so **to add people to an empty room, either shoot a stand-in for Genjutsu to swap, or use a video-edit or frame-first model** (below).

Which tool for which job (Higgsfield line-up checked 21 Oct 2026)

GOAL	BEST HIGGSFIELD TOOL(S)	HOW	WATCH-OUTS
Add people to an empty room, keeping your real camera move	Seedance 2.5 (Video Edit mode) · Kling 3.0 Omni Edit · FLUX 3 Video Edit	Upload the plate, add reference images (wardrobe, props) and write a text instruction	Keep clips 3–6s. Check hands and faces. FLUX 3 Video Edit uses only the first 15s.
Add people with maximum control	Nano Banana Pro · Nano Banana 2 (inpaint mask) · Seedream 5.0 Pro → Kling 3.0 / Veo 3.1 / Seedance 2.5	Edit a still frame, then animate it (start and end frames)	Needs a locked-off camera so AI shots cut cleanly with real ones
Replace a stand-in or prop	Genjutsu Object Swap · Genjutsu Lite	Film a stand-in doing the action and swap them with reference images	Source 4–30s (Lite up to 15s). Up to 30 references.
Copy a move or trend onto a new look	Genjutsu Motion Transfer · Kling 3.0 Motion Control	The team member performs, then the motion is transferred	Full body in frame, plain background, even light
Restyle a whole clip	Genjutsu Styles / Restyle	Pick a named look; your motion is kept	Use for comedy beats, not trust content
Magic transitions	Kling 3.0 start/end frames · Draw to Video · Viral effect presets	Start frame = before, end frame = after	Match lighting between frames
Cinematic establishing shots	Cinema Studio 4.0 · Cinema Studio Video 3.0 (genres: horror, epic, comedy, noir…) · Veo 3.1	Start from a real photo of Bury or Millett House	Don't invent landmarks; keep them recognisable
A consistent mascot or character	Soul 2.0 with Soul ID · character sheet workflow	Build a reusable identity once	Keep it obviously fictional
Multilingual versions	Dubbing · Sync Lipsync 3 · Voice Change	One English take becomes several languages	A fluent human must check every line

GOAL	BEST HIGGSFIELD TOOL(S)	HOW	WATCH-OUTS
Finishing	Reframe · Video Upscale / Topaz · FPS Boost · Video Background Remover · Virality Predictor	Convert 16:9 to 9:16, sharpen, slow motion, pre-check hooks	Platform data beats any predictor

Step by step: filling the empty reception (Idea 01)

Route A: frame-first (most reliable)

1. Export the sharpest frame from the 15s clean plate.
2. **Nano Banana Pro**: add **one** person per edit (or mask the area with **Nano Banana 2** inpaint). Keep the room "exactly the same."
3. Repeat to build the fuller room in stages: 1, then 3, then 6 people.
4. **Kling 3.0**: start = empty frame, end = filled frame, *static camera*, 5s.
5. Cut it against your **real** staff greeting shot from the same angle.

Route B: real-footage edit

1. Use the stand-in take (team members doing the welcome).
2. **Genjutsu Object Swap**: swap each stand-in into a builder, chef and so on, using wardrobe reference photos.
3. Or take the empty push-in into **Seedance 2.5 Video Edit** / **Kling 3.0 Omni Edit**: "add two clients on the sofa holding coffee cups; do not change the camera, room or lighting."
4. Draft at 480p (Seedance 2.5 has a draft mode), then finalise the winners at 1080p.

Filming "AI-ready" footage: checklist

- ☐ Tripod, with exposure, focus and white balance **locked** (no auto)
- ☐ Shoot 4K at 25fps (UK standard); 60fps for slow motion
- ☐ 10–15s clean plates with no one walking through
- ☐ Keep lighting constant: close blinds if clouds are moving
- ☐ Shoot landscape 4K **and** native 9:16, or plan to use Reframe
- ☐ Stand-in takes in the same framing as every clean plate
- ☐ Reference stills: each person and prop from front, side and back
- ☐ Solid-colour wardrobe (small patterns flicker in AI)
- ☐ Record 30s of room tone for every location
- ☐ Never let AI draw your logo or text; add them in the edit

CREDITS & QUALITY

Higgsfield's Genjutsu article quotes a 15-second clip at about **40 credits (480p), 104 (720p) and 144 (1080p)**. Every run shows its cost before it generates. FLUX 3 Video Edit is listed at about 1 credit per second. **Workflow:** test hooks cheaply at 480p or with Genjutsu Lite, then render only the winners at 1080p. Keep each AI shot short (2–6s) and **cut on motion** so small artefacts aren't noticed.

06 Copy-and-paste prompt bank

Swap the words in [brackets]. Always tell the model what **must not change**, which is the single biggest quality lever for edits.

P1 · Add a person to a still (reception)

Nano Banana Pro / Nano Banana 2 inpaint / Seedream 5.0 Pro

```
Using this exact photo, add [a smiling chef in white chef's whites] standing at the reception desk, being welcomed by the receptionist. Keep the room, furniture, lighting, camera angle, logo and signage exactly the same. Photorealistic, natural skin texture, correct floor shadows.
```

P2 · Animate empty → full

Kling 3.0 (start + end frame) / Veo 3.1

```
Static locked-off camera. Clients walk in through the door one by one and are warmly greeted at the desk until the reception is busy and friendly. Natural office light, realistic walking, no camera movement, no text, no logos.
```

P3 · Edit real footage

Seedance 2.5 Video Edit / Kling 3.0 Omni Edit

```
Add two clients sitting on the sofa, chatting and holding coffee cups. Do not change the camera motion, room, furniture, lighting or any signage.
```

P4 · Genjutsu Object Swap

Genjutsu / Genjutsu Lite

```
Replace the person in the grey t-shirt with the builder from the reference images (hi-vis vest, white hard hat). Keep their motion, the handshake, the camera, the room and the lighting exactly the same.
```

P5 · Receipt tornado

Kling 3.0 start/end frames

```
Static camera. Paper receipts burst from the shoebox and swirl into a glowing golden tornado, then fold into one neat black folder with a gold tick. The office stays the same. Realistic paper physics, magical, cinematic.
```

P6 · Horror atmosphere

Kling 3.0 Omni Edit / Cinema Studio Video 3.0 (horror)

```
Same office, same camera. Thin fog creeps along the floor, the lamp flickers, a shadow of a hand crawls slowly across the back wall. Cold blue horror-film lighting, subtle and realistic.
```

P7 · Weather / mood swap

Seedance 2.5 Video Edit / Kling 3.0 Omni Edit

```
[Before] Heavy rain on the window, grey overcast light, slightly desaturated. [After] Warm golden-hour sunlight through the window, soft glow. Keep the people, motion and room identical.
```

P8 · Gold-dust entrance

Kling 3.0 start/end frames

```
Static camera, same room. A spiral of glowing gold dust rises from the floor and the person materialises from it, standing confidently. Subtle, magical, realistic lighting, no text.
```

P9 · Trading card

Nano Banana Pro / GPT Image 2

```
Premium collectible trading card in black and gold foil. The person from the reference photo, face exactly as in the photo, centre frame. Title "[THE TAX WHISPERER]". Stats: Superpower — [finds missed expenses]. Kryptonite — ["I'll send it tomorrow"]. Art-deco border.
```

P10 · Bury map opener

Nano Banana Pro → Kling 3.0

```
Stylised black and gold illustrated map of a northern English market town centre with a glowing gold location pin. Elegant, minimal, premium. [Animate:] slow cinematic push-in toward the glowing pin.
```

SHOOT-DAY PLAN

07 Run sheet

Sample timings for about 6 hours of filming. Shift the blocks to match your start time. Shoot **location by location**, not idea by idea, to save setup time.

ONE SHOOT, 25+ POSTS

15 core videos + 10 quick-fire videos + Meet-the-Team cut-downs (one per person) + a Budget video per audience + carousels from stills + Stories from bloopers = **25–40 assets**. That is enough for 8–10 weeks at 4 posts a week.

Editing workflow

1. **Log** the best takes per idea the same evening (a folder per idea).
2. **Rough cut** the real footage first, leaving gaps for AI shots.
3. **Generate** AI shots in Higgsfield: drafts at low resolution, finals at 1080p.
4. **Polish:** burned-in captions (Inter Bold), gold “ting” sound, logo end card, colour grade.
5. **Export** clean, watermark-free files per platform (9:16 at 1080×1920).
6. **Label** AI content in-app when posting (see Section 10).

POSTING & DISTRIBUTION

08 WHERE, WHEN AND HOW TO POST

PLATFORM	ROLE	WHAT TO POST
TikTok	Discovery and reach	Skits, reacts (Stitch), trends, ASMR, Shoebox, Halloween
Instagram Reels	Local community and brand	Everything, plus **Collab posts** with Bury businesses; carousels from stills; Stories daily. Try **Trial Reels** to test hooks on non-followers.
YouTube Shorts	Search and evergreen	Tips, MTD, Budget, creator tax. Titles written as questions people search for.
Facebook	Local Bury audience, older owners	Market quiz, Spotlight, Halloween, Budget. Share to local community groups where the rules allow.
LinkedIn	B2B credibility	Budget, MTD, Meet the Team, client glow-up, the trailer
Google Business Profile	Local search ("accountant near me")	Upload team photos, videos and updates weekly, and reply to every review
WhatsApp	Conversion	Every CTA points to your WhatsApp link (wa.me/447926588148). Use a WhatsApp Business catalogue for services.

Cadence

4 short videos a week (TikTok, Reels and Shorts), plus daily Stories and 1–2 LinkedIn posts. The most popular creators post several times a week. Consistency beats bursts.

Timing

Start with **12–1pm** (owners' lunch scroll) and **7–9pm**, then move to the slots your Insights show work best after two weeks.

First hour

Reply to every comment fast, ideally with a **video reply**. Pin a comment with the CTA. Share to Stories with a poll or question sticker.

Hook bank (first 1–2 seconds)

1. "POV: you bring your accountant a shoebox on January 30th"
2. "This tax 'hack' has 600k views. It could cost you."
3. "If you're self-employed in Bury, watch this before 31 January."
4. "Landlords: HMRC now wants to hear from you every 3 months."
5. "The scariest thing in Britain isn't a ghost..."
6. "We asked Bury Market: can you claim THIS?"
7. "Got free stuff from a brand? HMRC might call it income."
8. "3 things from today's Budget that hit your wallet."
9. "What accountants SAY vs what we're THINKING."
10. "Stop doing this with your receipts."
11. "The £100 mistake thousands make every January."
12. "Your Christmas party could be tax-free. Here's the rule."
13. "An accountant rates your tax excuses 1 to 10."
14. "Every business in Bury walks through this door eventually..."
15. "'Accountants are boring,' they said."
16. "Things your accountant is too polite to tell you."
17. "Builders, this one's for you." (sector call-out)
18. "I've done hundreds of tax returns. These 3 mistakes come up again and again."
19. "Sound on. The most satisfying sound in Bury."
20. "In a world where receipts go missing..."

JANUARY PLAN

January is accountancy's "Black Friday". Run the **daily countdown (F)**, repost your top 3 performers, and push WhatsApp CTAs hard. Many people search for help in the final days before 31 Jan, so be the friendly Bury firm already in their feed.

Captions & hashtags

Formula: hook line → 1–2 lines of value → a question to drive comments → CTA ("WhatsApp us", "Send this to...") → 3–5 hashtags. Put keywords in the caption *and* the on-screen text, because both platforms index them for search.

Core tags: #Bury #BuryBusiness #GreaterManchester #UKTax #SelfAssessment #MakingTaxDigital #SmallBusinessUK #Accountant #NotYourEverydayAccountant. **Search keywords:** "accountant in Bury", "self assessment help Manchester", "MTD for landlords", "tax for content creators UK".

MEASURING WHAT WORKS

09 Track the signals, then double down

METRIC	WHAT IT TELLS YOU	ACTION
3-second hold / skip rate	Is the hook working?	If people leave early, rewrite the first line or text and start on the action
Average watch % / completion	Is the edit tight enough?	Cut dead air and add a loop ending
Sends (DM shares)	Is it worth passing on? The strongest reach signal	Remake high-send topics in new formats
Saves	Is it useful?	Turn high-save tips into a series or carousel
Follows per video	Does it make people want more?	Series formats usually win; keep them going
Profile visits → WhatsApp or website clicks	Is content turning into enquiries?	Tighten the CTA and bio link; use a link-in-bio page with UTM tags
Enquiries ("How did you hear about us?")	The real business outcome	Add the question to every enquiry and track it monthly

Every 2 weeks

Rank all posts by sends and completion. The **top 20%** get a part 2 or a remake on a new topic.

Three-strike rule

Give a format 3 tries with different hooks. If all three are in your bottom 20%, retire it.

Before posting

Run two hook versions through Higgsfield's **Virality Predictor** as a sanity check, but real platform data always wins.

WHAT "GOING VIRAL" REALISTICALLY LOOKS LIKE

Most local business accounts grow through a **series of small hits**, not one mega-viral video. A few videos will far outperform the rest; your job is to spot them quickly and make more like them. For an accountant, **10,000 views from Greater Manchester business owners** are worth more than a million views from anywhere.

COMPLIANCE & BRAND SAFETY

10 Stay trusted while you go viral

AI content

- **Label realistic AI** using TikTok's "AI-generated content" toggle. Meta applies an "AI info" label and detects C2PA content credentials.
- **Never** create AI likenesses of real public figures (e.g. the Chancellor) or private individuals. TikTok bans unlabelled deepfakes of real people.
- Get written consent from every team member whose likeness is used in AI.
- Higgsfield's own guidance: use footage you own or have permission for, with consent from anyone shown.

Testimonials & claims

- **No fake reviews or AI "clients".** The UK Digital Markets, Competition and Consumers Act 2024 bans fake reviews and misleading presentation of reviews.
- Quote real reviews word-for-word, with permission.
- Label dramatisations as "Dramatisation."
- No guaranteed savings or refund claims, in line with advertising rules (CAP Code).

Tax accuracy

- A qualified team member signs off every tax claim before posting.
- Date-stamp tax content ("Correct as of Oct 2026").
- Add "General information, not personal advice."
- Follow the conduct rules of whichever professional body RKN's accountants belong to.
- Never use HMRC logos or imply HMRC endorsement.

Privacy & rights

- **GDPR:** no client documents, names, figures or screens in shot. Use dummy data.
- Release forms for everyone featured. Avoid filming children in public.
- **Music:** business accounts use the TikTok Commercial Music Library or Meta's licensed sounds, not any trending song.
- Stitch or Duet natively; never re-upload other creators' videos.

QUICK WINS & SOURCES

11 Fix These This Week

- [ ] **Link the footer social icons** on rknaccountancy.co.uk to your real profiles (they currently have no links)
- [ ] **Fix the About Us 404** and embed the Meet the Team video and RKN: The Movie
- [ ] **Launch Journals** ("Coming Soon") with short tip videos and a written summary, which also helps SEO
- [ ] Add team photos and names to the site (none are shown today)
- [ ] Use the same handle everywhere (e.g., @rknaccountancy) with a bio: "Not your everyday accountant · Bury, Greater Manchester · WhatsApp below 👇"
- [ ] Upload today's photos to your **Google Business Profile**
- [ ] Ask happy clients for Google reviews (you have 13; aim for 50+)
- [ ] Set up a short "How did you hear about us?" question on enquiries
