ORGANIC FOSTERING · 30-SECOND AI REEL · CONCEPT & SCRIPT

THE CONCEPT

She arrived with one bag.
Everything inside it is who she is.

A foster child's small backpack is unpacked in a bright spare bedroom. Each item reveals part of her identity, and her carer has already made space for every one.

THE STORY

Close, warm, hands-only shots of the bag being unpacked. Five objects, five parts of one child:

- Hair bonnet
- Book in her language
- Prayer mat
- Football shirt
- Family photo

The final shot pulls back: the bag is empty and the room is full of *her*. We see her face once, at the end, smiling.

WHY IT WORKS

- **Curiosity hook:** "Here's what was inside" keeps people watching to the end.
- **Shows the brand's strength:** cultural matching (culture, faith, language, identity) without explaining it.
- **Timely:** fits Black History Month, "Honouring Our Communities".
- **Built for AI:** hands and objects generate reliably; only one face shot.

AI Shot Prompts

Make a still for each shot first, then animate it with image-to-video (Kling, Veo or Higgsfield). Generate 5 s clips and trim to the script timings.

STYLE LINE: ADD TO EVERY PROMPT

> Photorealistic, vertical 9:16, cinematic 35mm, shallow depth of field, soft warm morning window light, cream and peach UK bedroom with small magenta and orange accents, gentle handheld camera, natural skin texture, no text, no logos.

SHOTS

1 · Hook: a small worn navy child's backpack drops softly onto a neatly made single bed with a peach throw; slow push-in.

2 · Zip: extreme close-up of the backpack zip sliding open, fabric texture, light catching the zip.

3 · Hair: a young Black girl's hands lift out a satin hair bonnet; an adult woman's hands place it on a wooden dresser beside a wide-tooth comb and hair-care jars.

4 · Language: adult hands slide a colourful children's picture book onto a low shelf beside similar picture books; slow side track.

5 · Faith: a small patterned prayer mat is gently unfolded on the floor in a sunlit corner by the window.

6 · Football: a plain sky-blue children's football shirt (no badge) is hung on a wardrobe door; an adult hand smooths it.

7 · Family: a slightly creased printed family photo is placed into a simple wooden frame on a bedside table.

8 · Payoff: wide shot of the finished bedroom, the empty backpack on the floor; a Black girl of about 9 sits on the bed and gives a small, shy, genuine smile; slow pull-back.

9 · End card: designed in the edit, not generated: brand gradient, OF logo, CTA in Poppins.

PRODUCTION & SAFEGUARDING NOTES

- Keep the girl's look consistent: use one reference image of her for shots 3 and 8.
- Add the book title and any text in the edit, so the AI never renders misspelt words. Have a Somali speaker check the book cover if one is shown.
- Turn on Instagram's "AI info" label, and add the small on-screen note "AI-generated imagery. Not a real child."
- Never use photos or likenesses of real children in care.
- Voiceover: use a real voice artist or an approved AI voice. Burn in captions for sound-off viewers.
- Every claim comes from organicfostering.co.uk. The objects tell a story; they are not statistics.
